history

IN THE BEGINNING

The Beautiful Game claims about 80 percent of the world's sports fans. Adi was one such fan. He was driven by his passion for sport and above all for football. It's the same passion that drives us on today. At adidas, we pursue our passion through our work. Just as Adi did decades ago. He turned his dedication to healthy physical exercise into his business. He triggered off a tradition of enthusiasm, involvement and understanding that has made adidas the athlete's friend. We want to help the losers and turn them into winners. We are devoted to performance, to innovation, to athletes. We know what's going on in sport. Because it is our passion.

history

Over 90 minutes the average footballer runs approximately 10 kilometers, which makes 'The Beautiful Game' one of the most demanding sports in the world. As a result, the needs of players are equally demanding. Bursts of speed, ball control, agility, keeping cool and dry are all facets of the modern game, and all present unique challenges. For the past 50 years adidas has been working with individuals and teams to create performance-enhancing solutions that not only drive the game forward, but also help athletes realise their goals.

adidas is proud to present a wide variety of products for all kinds of consumers, from the World Cup to the small game at the local park, adidas will always be ready for football.

CLIMACOOl

A combination of performance fabrics, open mesh and ventilation channels keep cool air flowing in and heat and sweat flowing out. You stay dry, comfortable and performing at your peak in even the most heated competition. With ClimaCool® equipped apparel you can ignore the heat and keep your focus right where it needs to be: on the road, track, field or finish line ahead.

FORMOTION™

ForMotion™ is three-dimensionally engineered to move naturally with the athlete's body during sport. ForMotion™ follows every curve of the athlete's body for a better fit and greater comfort while in motion.

CLIMALITE®

Light, breathable fabrics worn close to the skin conduct heat and sweat away from the body to keep you cool and dry in warm playing conditions.

CLIMAPROOF®

A lightweight, breathable shell that keeps wind, rain and snow out while allowing heat and sweat to escape through evaporation.

ClimaProof® locks out energy-sapping weather extremes so you stay dry and comfortable in even the harshest conditions.

Don't just suffer through the wind, snow or rain, bend the elements to your will with the help of ClimaProof® apparel.

CLIMACOOL®

A combination of performance fabrics, open mesh and ventilation channels keep cool air flowing in and heat and sweat flowing out. You stay dry, comfortable and performing at your peak in even the most heated competition. With ClimaCool® equipped apparel you can ignore the heat and keep your focus right where it needs to be: on the road, track, field or finish line ahead.

**adidas TECHFIT™ Medium
 Compression**

adidas TECHFIT™ is a compressive material construction which gives you the feel of a "second skin" while cooling your body. TECHFIT garments support the athlete's muscles (i.e. reduces muscle vibration), enhance body posture and optimises performance. Its seamless construction avoids chafing and guarantees highest comfort. Open mesh-inserts retract heat and sweat away from your body to stay cooler during your exercise. Athletes who look for maximum comfort find the right garment here.

adidas TECHFIT™ POWERWEB

With adidas TECHFIT™ POWERWEB technology, you truly get a performance benefit no matter what sport you play or what distance you run. Its combination of high compression fabric and elastic Powerbands improves your core strength and body posture and will allow you to do your sport specific motions with better accuracy. The Powerbands act like a pulley system to support all your muscles' movements as they contract and expand, conserving power and increasing explosiveness with every move you make.
