HUMMEL BRAND HISTORY

Bernhard Weckenbrock

→ **1923** →

Albert Messmer develops one of the first football cleats in the world. With his brother Michael Ludwig Messmer, he founds the company Messmer & Co., that will go on to become known as hummel.

→ **1956** ←

The visionary Bernhard Weckenbrock takes over the company. He creates a comprehensive brand identity and introduces the chevrons.

← **1969** ←

The first sportswear collection is launched. Sponsorships are signed and help boost sales. A rounder version of the bumblebee than the current one is created.

← **1968** ←

The first sponsorship deal is signed. The deal is with Duisburg, a team playing in the 2nd German Bundesliga.

1970

hummel is introduced to the Northern European market.

Emilio Butragueño

↓
1979 →

hummel signs a sponsorship deal with the Danish national team for the first time – a deal that lasts until 2004.

→ **1988** ←

hummel signs a sponsorship deal with Real Madrid and the club's biggest star, Emilio Butragueño. The deal makes hummel products even more popular.

1992

It's a surprising win, to say the least. The Danish national team takes the title at the European Championships having played Germany in the final.

1999

hummel gets a new owner – Thornico. Christian Stadil becomes part of the brand history. He launches a reintroduced, original sport style collection on the fashion market and hummel becomes a trendsetting sports apparel brand.

Christian Stadil

2017

The Danish women's team wins silver at the Women's Euro Championship in the Netherlands, losing to the Netherlands in the final.

2016

After many years hummel once again sponsors a team in the German Bundesliga. SC Freiburg plays a sensational first season after returning to the first league and qualifies for international competition.

2013

hummel celebrates its 90th birthday with the relaunch of a range of heritage styles.

2018

hummel signs a sponsorship deal with Scottish giants Rangers F.C. – the club with the most league titles in the world. From hummels perspective, the deal marks a renewed focus on football in the UK.

2019

The International Handball Federation and hummel join forces, with hummel becoming the official technical sponsor and clothing supplier of the IHF. The new partnership starts with The IHF World Men's Championships in Denmark and Germany in January 2019

1000+

SPONSORSHIPS

hummel is proud to sponsor a powerful, inspiring and unparalleled roster of teams, clubs, and players in countries all over the world. Together, they form #teamhummel – and in different ways, they bring character, strong social values, and

commitment to the game. To bring some of our key collections to life, we have visited six of the clubs we sponsor – and at hummel, we work hard to create even closer relationships with all partners in the years to come.

ESSENTIAL GOALKEEPER JERSEY 004087 & ESSENTIAL GOALKEEPER SHORTS 010815

GOALKEEPER & REFEREE

Extra protection, fit, and comfort

The goalkeeper and referee collection delivers extra support for every move. Protective padding, effective moisture management and breathable mesh inserts allow for unrestricted movement, extreme leaps and jumps. Padded elbows and tights

ensure optimal protection and both the design and colours allow referees and goalkeepers to be easily recognized on the field or court. Inspired by Peter Schmeichel's iconic 90s goalkeeper jersey, selected styles are decked out with retro embossed print.

HANDBALL INFLATION GUIDE

PREPARATION

During wintertime, we suggest to store the handballs at room temperature (20 – 25°C) for minimum 24 hours before the first inflation in order to secure optimal softness, shape and grip.

VALVE OIL

Drip 1 – 2 drops of hummel valve oil into the valve.
It is important that valve-oil is used at every inflation as it makes the valve seal properly.

INFLATE

Position the valve upwards and insert the inflation needle straight into the valve. Always use a long pump needle to ensure the needle does not damage the valve or the bladder.

CHECK PRESSURE

- Inflate the ball to the recommended pressure.
- Recommended pressure is printed on the ball near the valve.
- Inflate slowly to allow the ball to gain its correct shape. Rapid inflation can damage the bladder.
- Use a pressure gauge to check the pressure of the ball.

HANDBALL MAINTENANCE GUIDE

BEFORE EACH INFLATION

Always drip 1 – 2 drops of hummel valve oil into the valve before inflation to ensure that it seals properly.

STORAGE

Store the handball in a ventilated room at 20 – 25°C.

FOOTBALL INFLATION GUIDE

PREPARATION

During wintertime we suggest to store the footballs at room temperature (20 – 25°C) for minimum 24 hours before the first inflation in order to secure optimal softness and shape.

Unfold the football with both hands and shake the bladder free.

VALVE OIL

Drip 1 – 2 drops of hummel valve oil into the valve. It is important that valve-oil is used at every inflation as it makes the valve seal properly.

INFLATE

Position the valve upwards and insert the inflation needle straight into the valve.

Always use a long pump needle to ensure the needle does not damage the valve or the bladder.

CHECK PRESSURE

- Inflate the ball to the recommended pressure.
- Recommended pressure is printed on the ball near the valve.
- Inflate slowly to allow the ball to gain its correct shape. Rapid inflation can damage the bladder.
- Use a pressure gauge to check the pressure of the ball.

FOOTBALL MAINTENANCE GUIDE

BEFORE EACH INFLATION

Always drip 1 – 2 drops of hummel valve oil into the valve before inflation to ensure that it seals properly.

STORAGE

Store the ball at reduced pressure in a dry ventilated room at 20 – 25°C.

CLEANING AND DRYING

After use clean the football in mild soapy water and rinse with water. Then wipe the ball off with a towel and let it fully dry in a dry, airy place at 20 – 25°C.

Never dry the ball on or near a heating device.
