

# PUMA TEAMWEAR

2009/10

## PUMA & the Environment

The protection of the environment is an ongoing process. As such continuous improvements are required to live up to our environmental accountability to consumers, suppliers, employees and the generations to come.

Each human being is in direct contact with his environment. As such, environmental protection is of enormous importance to PUMA and also poses challenges ahead. Our aim is not only to make environmentally compatible production of our sporting goods transparent to our partners and stakeholders, but also to continuously improve our standards. We spend enormous efforts in phasing out the material PVC from all our products. Actually we are proud to say that all our products are PVCa free. As well being engaged in several working committees on product related environmental issues ensures us that our standards are always updated.

We take our responsibility towards our customers.

## Welcome to Teamsport

Players need to be decisive. There's no time for confusion. The whole moment is about precision. They need solid levels of personal comfort and confidence, so that they can contribute to ultimate performance of their team and enhance its solidarity. When these levels are reached, in that single moment, everything comes together, and the true sense of the word 'team' reveals itself.

That's how PUMA Teamsport works. It's fast and decisive, and always advancing: staying one step ahead, maintaining a mental and physical understanding between players, and, of course, keeping the goal in mind. Teamsport provides unique performance solutions with an attitude that inspires and motivates players.

For more than 60 years, PUMA has enabled players and teams to reach the aforementioned levels of comfort and confidence. The Teamsport discipline is where PUMA proves its performance expertise and relentless commitment to product excellence.

Teamsport remains true to its heritage while living in the present and setting its sights on the future.

It is a constant evolution.

## Welcome to Football

Football is, truly, everyone's game. One ball, two goals and a couple of players and all is set for a game to kick off. While the pure elements of football remain unchanged, external influences and the unique abilities of players play an increasing role. These elements affect players and fans alike – leaving them energized and craving more from their sport.

At PUMA, we accompany players and teams through this evolution of the game. We reinforce the true values of the game and bring heart to our products. Last year, PUMA brought players to the ball even faster and ensured that they looked good while gaining split second advantages. In the second half of 2009, as continental champions meet in South Africa, PUMA pays homage to Italian football and to Vittorio Pozzo the founder of modern Italian football. PUMA delivers new standards in performance innovation and design while taking inspiration from the natural elegance and winning mentality of the reigning World Champions: Gli Azzurri.

Nemanja Vidic

A black and white photograph of Nemanja Vidic, a professional footballer, captured in a dynamic, athletic pose. He is wearing a black long-sleeved shirt with a small white logo on the chest and black shorts. He is looking directly at the camera with a focused expression. His right leg is raised high, and his right foot is visible, showing a white and black sneaker. The background is a plain, light-colored wall. A large, semi-transparent orange banner is overlaid across the middle of the image, containing the text "Vive Le Body!".

# Vive Le Body!

**FIFA APPROVED**  
Footballs that carry this emblem are guaranteed to be premium quality and must pass 7 tests.

**FIFA INSPECTED**  
Footballs that carry this emblem are guaranteed to be the highest quality and must pass 6 tests.

**P.A.L. PUMA Air Lock**  
Patented new valve, which makes air leakage nearly impossible.

**P.B.T. Perimeter Balance Technology**  
Special rubber layer on bladder compensates the weight of the valve and guarantees a 100% shot accuracy.

**U.S.P. Advanced Ventilation**  
**Q:** How is this garment special?  
**A:** It's highly breathable and protects against overheating by maintaining an even body heat during training. It's totally sport specific.  
**Q:** So it's good for working out?  
**A:** Yes, your energy loss is minimised so you stay cooler and less flustered.  
**Q:** Could I wear it to a party?  
**A:** Sure.

**U.S.P. Moisture Management Technology**  
**Q:** So why do I need my moisture managed?  
**A:** Fabric that can wick moisture away from your skin and quickly evaporate it will keep you dry and comfortable.  
**Q:** Moisture? Do you mean sweat?  
**A:** Yes, if the fabric can't get rid of the sweat quickly you end up wet and uncomfortable.  
**Q:** Like you spilled a drink down your shirt?  
**A:** Sure.

**Slim Fit**  
Ergonomically redesigned to provide protection against unruly play, enabling a player to gain a secondsplit advantage over the opposition and maximize the winning potential.
