

TAILORED *By* UMBRO

# TEAMWEAR

---

SEASON 2012 - 2013

# CONTENTS

---

For over 80 years Umbro has been the ‘kit of choice’ for many of football’s greatest clubs, both domestically and internationally, so when it comes to tailoring to your team’s needs you’re in the very best hands with Umbro Teamwear. Because our love and understanding of the game begins at the roots, we make sure that you don’t have to pay top-flight prices for Premiership quality.

- **Free delivery on orders over £100**
- **Buy your kit direct from £345 adult and £295 junior**
- **Free Teamwear holdall with every full team kit**

## ORDERING INFORMATION

### NUMBERING

Heat-sealed Umbro numbers (see above). Available in: navy, white, emerald, black, silver, sky, royal, gold, yellow and red.

### CLUB BADGES

There are five designs to choose from (see above). Alternatively, if appropriate artwork is provided, bespoke club badges can be produced.

### SPONSOR'S LOGOS

There are six font styles to choose from (see above). Please note that sponsor's logos cannot exceed 200cm<sup>2</sup> (as per FA regulations). As with club badges, if appropriate artwork is provided, bespoke sponsor's logos can be produced.

### HEAT-SEALED/EMBROIDERY

Heat-seal transfers are lightweight and cause no irritation next to skin garments. Embroidery on the reverse side (next to skin) can potentially cause chafing. Please make sure that you have asked permission to use any registered trademarks. Umbro cannot accept any responsibility for infringement of any third party intellectual property rights. Umbro reserves the right to refuse to print any offensive and/or unacceptable name or logo.

### ARTWORK

All artwork supplied needs to be in jpeg or eps or Illustrator format via email or cd-rom. The Pantone® shades of colour must also

be provided where possible. Please send your completed order form and artwork discs to:

**Umbro Teamwear**  
**Umbro House, Lakeside**  
**Cheadle, Cheshire SK8 3GQ**

### CUSTOMISATION

Please ensure that lettering and numbers are correct before time of printing, as Umbro will not accept responsibility for any errors made on your behalf. Umbro is unable to provide any advice concerning decorative additions other than those it supplies and will not accept responsibility for damage/disco colouration caused by the application of other decorative products applied by another source.

### TRANSFERS AND BADGE CARE

Turn garment inside out and wash on a 40° cycle to prevent abrasion and colours running during wash.

DO NOT use bleaching agents, biolocal wash powders or spot removers on the garment - this may damage your transfer. DO NOT iron - excess heat may damage your transfer. DO NOT scrub the transfer. DO NOT dry clean. DO NOT tumble dry.

## CARING FOR YOUR KIT

Umbro's commitment to the very highest standards in tailoring performance apparel means that our kits are not only technologically advanced but also resilient.

Included here are a few advisory notes intended to help you to preserve the life and colour of your kit.

- All garments may be subject to some discolouring as of general wear and only partially washed off mud and grass.
- Follow garment care labels to minimize any colour loss or change.
- Try to avoid leaving kit bundled together and scrunched up when damp.
- Do not overfill washing machines as dirt can re-deposit causing discolouration
- After use, soak in warm water with appropriate (non-chlorine bleach based) detergent for approx 2 hours prior to washing in machine. This will help in removal of stains and reduce the chance of colour loss.
- Umbro will not accept liability for any discolouration derived from foreign elements other than those used in the manufacturing of the material.
- Washing above 40 degrees or tumble drying garments/applications will seriously damage the products. Umbro will accept no liability should damage occur as a result.

## TERMS & CONDITIONS OF USE

1. PAYMENT  
All goods must be paid for when order is placed.

2. PRICES  
a) The current seller price list supersedes all prices for similar goods in previous price list.  
b) Prices are subject to revision without notice and the prices payable by the buyer will be the prices in force at the time of receipt of your order by Umbro International Limited.  
c) All prices correct at time of print (May 2011).

3. VAT  
All prices are inclusive of VAT, at current rate.

4. CARRIAGE  
All teamwear is sent by courier. In order to ensure the best possible delivery service it is necessary that

you provide Umbro with a delivery address, which is occupied between the hours of 9.00am and 5.00pm, Monday-Friday.

5. DELIVERY  
Umbro aims to deliver your order within 10 working days for non-customised kits and within 21 working days for customised kits. However, during the peak months of the year it may take longer to fulfil your order. If ordering your kit during the months of June, July and August, please contact us on 0845 603 7047 so we can give you a realistic indication of when you can expect to receive your order. No compensation will be considered relating to any issue relating to delivery.

6. DAMAGE IN TRANSIT  
All goods must be examined on receipt and if found to be damaged, you must inform Umbro within seven days

of receipt of the goods. If Umbro are not informed within this time scale then no claims for damage can be made.

7. SHORTAGE OR LOSS  
All goods must be examined on receipt and if found to be short Umbro must be informed within seven days of receipt of the goods. If Umbro are not informed within this time scale then no claims for shortage or loss can be made.

8. DISCLAIMER  
The brochure is for general guidance only and its contents do not in any way constitute an offer or representation by Umbro. While all reasonable efforts have been made to ensure the accuracy of the information provided, due to the continuous product development by Umbro, all particulars contained within are subject to revision and

Umbro reserve the right to change, alter or modify specifications, colours and prices of the products featured, without notice, at any time.

The colours within this brochure may differ slightly from the actual colours of the products. This is due to the nature of the printing process.

9. RETURNS  
Umbro shall endeavour to deliver orders in accordance with the customer requirements. However, there may be occasions when errors occur and on these occasions Umbro will rectify any errors at their expense. This will be deemed as full and final settlement of these matters and no further compensation shall be considered. Please check carefully that the customisation you require printing on your shirt is correct. Umbro cannot accept any liability for any errors on this order.

# FOOTBALL SIZE GUIDE

---

The first step in purchasing a football is determining the proper size for your age group. Many football leagues have different size requirements, so be sure to check with your organization to find out which is the proper size for the age group that the ball will be used with. Footballs for match use come in three different sizes which range from size 3 to size 5.

## SIZE 3

- Size 3 balls are the smallest balls and are generally used for children under the age of 8.
- Size 3 balls generally weigh between 310 - 340 grams with a circumference of 58 - 61 cm.

## SIZE 4

- Size 4 balls are used for players between the ages of 8-12.
- Size 4 balls weigh between 340 - 368 grams and have a circumference of 63 - 66 cm.

## SIZE 5

- This is the international standard match ball for all ages 12 and older, including all adult play.
- The size 5 ball weighs between 396 - 425 grams with a circumference of 68 - 71 cm.

# FIFA™ APPROVED TESTING

---

## CONSISTENT CIRCUMFERENCE

The size of a football must meet defined standards. This is crucial for players to make accurate passes and dribbling. Footballs are inflated to a defined pressure and then the ball's radius is measured at 45,000 points. The circumference is calculated arithmetically in order to ensure that the circumference is consistent and within the limits at every point.

## PERMANENT ROUNDNESS

Playing with a perfectly round ball is important, if a ball is not completely round, it will not roll normally, making dribbling very difficult. The radius of the ball is measured at 45,000 points. The differences between each point are calculated mathematically for the FIFA INSPECTED quality mark or FIFA APPROVED quality mark.

## UNIFORM REBOUND

Rebound testing checks the elasticity of the ball. Uniform rebound is crucial for players, especially when stopping the ball after a long pass with the chest, foot or head. A predictable rebound is important. In the laboratory, the balls are dropped ten times onto a steel plate from a height of two metres.

## MINIMAL WATER ABSORPTION

A ball that absorbs too much water will not roll very far if at all, and players will definitely notice it when they head the ball. The ball must stay afloat as much as possible and not sink like a stone. Under extreme conditions, when it has rained for hours and the ground is soaked, any ball will absorb some water. How much it absorbs is crucial. The ball is turned and squeezed 250 times in a tank full of water. The ball is not allowed to absorb too much water.

## PERFECT WEIGHT

A ball's weight is important because if it is too heavy, a player needs more energy to kick it or throw it. Excessive weight also increases the risk of injuries, but on the other hand, if a football is too light, it is difficult to control. In the laboratory, balls are weighed three times in a sealed cabinet to ensure that the measurement is not influenced by external factors. The results must be within tight limits to fulfil the criteria.

## MINIMAL PRESSURE LOSS

Pressure in a football must remain consistent throughout a match. If it does not, the ball must be pumped up again as soon as possible. In the laboratory, the ball is inflated to standard pressure. After 72 hours it must not have lost a certain percentage of its air if it is to meet the definitions of either the FIFA APPROVED or the FIFA INSPECTED quality label.

## SHAPE AND SIZE RETENTION

This test ensures that the ball's shape, pressure and circumference remain constant. The ball is fired against a steel plate at 50 kilometres per hour – 2,000 times. The seams and air valves must remain intact and undamaged. Only minimal pressure loss and minimal changes in roundness and (pointer) circumference are permitted. Only after such thorough testing can the FIFA APPROVED quality label be awarded.
